

Skipper's Value

Price: If they sell seafood, we have been there to compare our seafood prices. We feel like we offer some of the most affordable seafood around. Don't take our word for it....The News & Observer's rated Skipper's an affordable one dollar sign which is their lowest cost rating. By the way...we received a coveted three star rating overall which is usually reserved for those higher priced restaurants!

Quality: We are always on the lookout for the freshest and highest quality seafood. We serve the best seafood available which is second to none.

Quantity: Our portions are huge. Some people tell us that our portions are too large. What do you think?

Skipper's Means Quality Scallops

Not all scallops are made the same....

While it is becoming more common for other restaurants to serve a chopped scallop pressed and held together with fillers and binders, Skipper's thinks it is deceptive to advertise this type of product as a "scallop." You can be assured that when we advertise scallops it is only the highest quality fresh whole sea scallops available.

Did You Remember Your Dessert?

We Make Homemade Cobbler, Key Lime Pie, Milkshakes, Ice Cream Cones and Delicious Sundaes. We feature North Carolina's own Maola brand ice cream.

Best of All.... Our Prices Are The Best Around!

What is your favorite Skipper's food?

We are working hard to be the best at what we do. Someday we hope to be voted by you our customers: "Best Fish Sandwich," "Best Lobster Bisque," "Best Onion Rings," "Best Key Lime Pie," "Best Hot Dogs," "Best Seafood Gumbo," "Best Fried Oysters," "Best Hush Puppies," "Best Clam Chowder," "Best Steamed Seafood," "Best Milkshakes," "Most Kid Friendly" ☺

We are not going to rest until we win a lot of awards!

Kid's Meals on Sundays

We understand that it can be difficult for families today to make their money stretch as far as it needs to go--especially when the entire family wants to go to dinner together. At Skipper's we're doing our best to help out. Bring the whole family to Skipper's on Sundays and the Young Mates (10 and under) can get a break. Order any item for your Young Mate for as little as \$1.99 and we'll even 'throw in the drink."

After dinner, don't forget, Young Mates can always get a single scoop of ice cream for \$1.00.

Why feed your Young Mates only chicken and burgers anymore when they can eat SEAFOOD!

Steamer Tuesdays

Is everything at Skipper's fried?

Not everything at Skipper's is fried. Every Tuesday night we set aside time for those of you who prefer seafood that is not fried. "Steamer Tuesdays" have been a hit with our customers who like freshly steamed seafood cooked to order. We feature shrimp, oysters, little neck clams, and crab legs. Enjoy this great seafood with Skipper's homemade cocktail sauce and tarter sauce that have been getting rave reviews from our customers. Some have told us that our cocktail sauce is the best they have ever had!

There is no need to pay exorbitant prices for steamed seafood and it is not necessary for you and your family to sit at a "bar" to enjoy quality steamed seafood at Skipper's.
